Work experience

Singapore Management University, Singapore

Senior Librarian, Research & Data Services (*April 2024 - Present*)

Data Services Librarian (*June 2021 - March 2024*)

- Provided research and data support to SMU community throughout the research lifecycle, primarily on data collection and analysis.
- Conducted multiple coding for research workshops in Python and R with consistently satisfactory feedback from participants (>86% participants would recommend the workshop to others)
- Led and coordinated SMU Libraries' inaugural AI hackathon 2023 which resulted in a research project to implement the winning prototype.
- Founding member of SMU Researcher Club, an initiative to engage researcher staff in SMU to foster collaboration and knowledge sharing among researchers.

Nanyang Technological University, Singapore

Librarian (*February 2019 - June 2021*)

Assistant Librarian (*August 2015 - January 2019*)

- Designed and developed more than 30 information and digital literacy classes for undergraduates and postgraduates. On average, the classes received a 95% satisfaction rating based on students feedback.
- Led a User Experience (UX) research project that evaluates the usability of the Library's discovery platform and Subject Guides.
- Developed and executed social media campaigns with the outreach team to promote the Library's resources. The campaigns generated a 98% increase of followers to NTU Library's Instagram account in just one year.
- Developed final year project (FYP) collection database for Wee Kim Wee School of Communication and Information (WKWSCI) with communication subject librarian.
- Helped expand the collaboration with NTU faculty to create and customize at least 100 course blogs and research websites to assist with the university's teaching and research activities.

Library Executive (*January 2013 - July 2015*)

- Contributed to the migration project of blogs@NTU from in-house hosting to a cloud-hosted solution; Drafted the ITQ technical requirements, conducted vendor evaluation, developed and executed the plan for change communication.
- Developed WordPress self-help guides and conducted at least 10 customized WordPress workshops in total to NTU faculty, staff and students.
- Provided technical customisations service and consultations to blogs@NTU projects.

Tyler Projects Pte Ltd, Singapore

Game Developer (*September 2011 to December 2012*)

- Part of a small and agile team of three developers for the Facebook game “Social Life”.
- Developed the integration with players’ Facebook account using Facebook API
- Developed parts of the gameplay mechanics using ActionScript3, PHP, and JavaScript.
- Developed the frontend user interface using HTML, CSS and JavaScript.
- Designed and developed the tutorial section of the game to entice and teach new players.

Skills

- Technical skills: PHP, JavaScript, HTML/CSS, SQL, Python, R.
- Tools: GitHub, WordPress, LibGuides.
- Liaison and instructions.
